

Multiplexers & Gage Interfaces

Featuring MicroRidge Technology

The following units are compatible with Zontec's Synergy 100, Synergy 1000, Synergy 2000 and Synergy 3000 Software:

GageWay SM for RS-232
(Part # GW-SM-R-xx)

Connects a single Mitutoyo gage to an RS-232 serial port; powered by the serial port; 9-pin serial cable built-in. Standard cable length: 72". Custom cable lengths also available.

Price: \$109.00

GageWay SM for USB
(Part # GW-SM-U-xx)

Connects a single Mitutoyo gage to a USB port; powered by the USB port; USB cable built-in. To the Zontec SPC applications, the GageWay SM for USB appears as a device connected to a serial port. Standard cable length: 72". Custom cable lengths also available.

Price: \$109.00

GageWay3 Plus
(Part # GW3-PLUS)

Connects two digital/RS-232 inputs to an RS-232 serial port..

Price: \$450.00

GageWay5 Plus
(Part # GW5-PLUS)

Connects four digital/RS-232 inputs to an RS-232 serial port. Includes RS-232 expansion port for fifth RS-232 input or for chaining additional interfaces.

Price: \$690.00

GageWayMx8 Interface
(Part # GW-MX8-MIT)

Connects eight Mitutoyo gages to an RS-232 serial port or USB port..

Price: \$895.00

Serial to USB Cable
(Part # USB-1SP-6)

Six-foot serial to USB interface cable.

Price: \$35.00

Wireless Interface System Components

MobileCollect Transmitters

Supports equipment from manufacturers such as Mitutoyo, Ono Sokki, Federal Maxum, CDI, Starrett, Fowler, Brown & Sharpe, Mahr Federal, LMI, etc. **Note:** You must also order the appropriate gage cable. Please specify the gage manufacturer, gage model (or series) and cable length up to 72".

(Shown with Opto cable)

Digital Mobile Module (Part # MC-MM-D)

Captures measurements from most digital and RS-232 handheld gages such as calipers, micrometers, digital indicators, etc. Battery-powered (battery included). **Price: \$229.00**

(Shown with Opto cable)

Command Mobile Module (Part # MC-MM-DC)

Functions similar to the Digital Mobile Module with additional ability to send a command from base unit to initiate a gage reading. Battery-powered (battery included).

Price: \$319.00

(Shown with Opto cable)

RS-232 Mobile Module (Part # MC-MM-R)

Supports RS-232 gages not supported by the Digital Mobile Module or the Command Mobile Module. Battery-powered (battery included).

Price: \$349.00

RS-232 Remote 300 (Part # MC-RS232-REMOTE300)

For RS-232 serial devices such as gage interfaces or scales in a non-mobile setup that you want to connect to the wireless system. Powered by external AC adapter (included).

Price: \$495.00

MobileCollect Base Units

MobileCollect USB Base (Part # MC-BASE-USB-72)

Receives measurements from mobile modules and remotes; powered by USB port on your PC or laptop. Includes setup program on CD and 72" USB cable. **Price: \$375.00**

MobileCollect RS-232 Base 300 (Part # MC-RS232-BASE300)

Receives measurements from mobile modules and remotes. Connects to RS-232 port on a PC. Powered by external AC adapter (included). **Price: \$495.00**
